# Progress & Status from Previous Plan

The previous district technology plan was originally designated to cover the years 2017-18 through 2019-20. Due to the pandemic, the Educational Technology Advisory Committee decided to extend that period to 2020-21. The progress and status below reflect accomplishments through June 2021.

Goal 1

Objective 20 – Implement new network security monitoring tools.	In Progress	Researching solutions.
Goal 4 Cloud Technology		
Objective 21 – Migrate key systems to the cloud.	Complete	Most of the mission-critical systems that support the district have been migrated to cloud platforms.
Objective 22 – Transform internal support expertise to support cloud applications.	In Progress	ETS staff are regularly going through training and professional development to enhance their skills and strategies for supporting cloud-based applications.
Goal 5 Institutional Culture		
Objective 23 – Update data retention policy.	Not Started	
Objective 24 – Provide training to employees on compliance issues.	Not Started	
Goal 6 Training & Professional Development		
Objective 25 – Conduct training for the Banner 9 ERP system.	Complete	The Banner 9 ERP system has been in place for several months. All impacted staff have been trained.
