

**Foothill College  
Program Application  
Associate in Science in Nutrition and Dietetics for Transfer Degree**

**Item 1. Statement of Program Goals and Objectives**

The Associate in Science in Nutrition and Dietetics for Transfer Degree meets the requirements set forth by Education Code section 66746 to prepare students to transfer to the California State University (CSU). Students who complete the Associate in Science in Nutrition and Dietetics for Transfer Degree will be ensured preferential and seamless transfer status to CSUs for Nutrition and Dietetics majors and majors in related disciplines. This program prepares students with foundational knowledge in the science of human nutrition as well as with the skills and knowledge to be successful in upper division coursework at CSUs. Students are advised, however, to meet with a counselor to assess the course requirements for specific CSUs.

Upon completion of the AD-T in Nutrition and Dietetics at Foothill, students will be able to:

- ◁ Utilize knowledge from the physical and biological sciences as a basis for understanding the role of food and nutrients in health and disease processes.
- ◁ Use their knowledge from the physical and biological sciences to critically evaluate nutrition information.
- ◁ Discuss how nutrition intersects with race and ethnicity, and socioeconomic factors to impact human health.
- ◁ Consider the impacts of dietary choices on the environment.

**Item 2. Catalog Description**

Students who complete the Associate in Science in Nutrition and Dietetics for Transfer Degree will be ensured preferential and seamless transfer status to CSUs for Nutrition and Dietetics majors and majors in related disciplines. This program prepares students with strong foundational knowledge in the science of human nutrition as well as with the skills and knowledge to be successful in upper division coursework at CSUs. Students are advised, however, to meet with a counselor to assess the course requirements for specific CSUs. Students may also review ASSIST to determine whether their desired university destination requires additional coursework (e.g. organic chemistry).

In addition, the student must complete the following:

- (1) Completion of 90 quarter units that are eligible for transfer to the California State University, including both of the following:
  - (a) The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education Breadth Requirements.
  - (b) A minimum of 27 quarter units in a major or area of emphasis, as determined by the community college district.
- (2) Obtainment of a minimum grade point average of 2.0.

ADTs also require that students must earn a "C" or better in all courses required for the major or area of emphasis.

Helpful to include any of the following?
