6. Budget reduction conceptual model:

If we were going to reduce our programs and services according to the following mission priorities as portrayed in the conceptual models below

The top model depicts Foothill, as we have been, fully funded and fully functional. The bottom three models illustrate options for reductions. The model to the left illustrates what we would look like if we did across-the-board cuts. The center model depicts reductions according to our mission priorities. The model to the right shows reductions made in the areas of lowest priority. Food for thought for the future.
