hybrid/online split format, which will attract a number of students statewide. The other community college offering this certificate is Santa Monica Community College, which has had a huge burst of enrollment in the cloud computing courses.

Foothill College offers many different computer science courses, some of which are language-based, while others are in the enterprise networking arena. However, there is no other program similar to the Cloud Computing certificate at Foothill.

Currently, there are no other colleges that offer this program. There is discussion of other community colleges such as Canada Community College, creating such a program. The proposed program is based off the highly successful cloud computing certificate program offered at Santa Monica Community College. Other Bay Area colleges are looking to replicate Santa Monica's program.
