The top 25 online courses by FTES represent 33% of total FTES generated by all online courses (454/1,358).

Almost half of the top 25 courses are housed in Business & Social Sciences (44% or 11 courses), while the remainder are in the Fine Arts & Communication (7), STEM (5), and Language Arts (2) divisions (Table 2). Not surprisingly, the Business & Social Sciences division also generates most of the FTES from these top online courses (44%).
