

More Key Results

\$6.00 is the overall change in hourly wages after completing training in dollars

32% is the overall change in hourly wages after completing training in percentage gain

66% of respondents reported being employed for pay

9% of respondents reported transferring to another college or university

91% of respondents reported being very satisfied or satisfied with their training.

Conclusion

The results of the survey showed that completing CTE studies and training whether or not a credential is earned, whether or not a student transfers is related to positive employment outcomes. The preponderance of respondents are employed and are working in the same field as their studies or training. Notably, students realize a greater wage gain after completing their studies if they secure a job that is similar to their program of study.
