

January 22, 2021

Dear Colleagues,

Our governance meetings are now fully back into the swing of things with E&E, R&R, and C&C all meeting today. The councils discussed everything from the Facilities Master Plan to service leadership, the Equity Strategic Plan, counseling support for Black students, the status of the college bookstore, and the scheduling of governance meetings themselves. In addition, the Emergency Operations Council (the 5th Council) is finalizing its membership and should convene its first meeting within a few weeks. As always, you are encouraged to join the meetings, and you can visit the [\[c\]jYfbUbWY](#) website to review agendas and read meeting minutes.

Thank you to everyone who filled out the governance assessment survey that was distributed in December. If you would like to provide input on Governance Updates Advisory Council, please join the Advisory Council at the 2/5 meeting and create an official response to the student demands. Advisory also approved Faculty Prioritization after hearing a second round of input from the community.
