Save A Child's Heart (SACH) is one of the largest undertakings in the world providing urgently needed pediatric heart surgery and follow-up care for indigent children from developing countries. Based in Israel, their mission is to improve the quality of pediatric cardiac care for children from countries where the heart surgery they need is unobtainable. Every 29 hours our doctors save a child's life in their medical facilities in Israel or on medical missions in partner countries around the world. Thousands of children are alive today because of a small group of medical professionals in Israel.

FREE ADMISSION to all events
