

[Foothill College](#) is one of 116 California community colleges, located in Los Angeles. The Foothill enrolls 16,000 students from nearby communities and [Science Learning Institute \(SLI\)](#) seeks to advance equity in STEM at Foothill College in our underrepresented communities by supporting students from underrepresented groups in STEM to pursue their academic

Foothill College is currently working with a 6-month STEM Summer Internship program and paid opportunity. To advance SLI's mission, this internship program prioritizes students who are first-generation, low-income, and have historically had less access to STEM. With these experiences, the intent is to provide students who have a

The goals of the internship program are as follows: Foothill College students will

- Gain hands-on, job-related skills in the relevant discipline.
- Gain exposure to work/ research that may influence their career paths.
- Be mentored by a mentor-supervisor who can provide support and insight in the working world.
- Have a community of support among the other interns in the program.
- Build their professional network for future employment opportunities.
