Motion to approve M/S (Starer, Pennington) Approved .
4. New Subject Area/Department	Speaker: Andrew LaManque LaManque presented the new subject areas/departments two divisions have requested for some existing courses. MTEC (Music Technology) separates the music history and "hands-on instrument" type courses from the tech production of music. EMR (Emergency Medical Response) identifies the CTE thread for certification and entry in to other emergency professions. CCC has no established process for department creation . This topic will be added to the goals list for 2015 -16 agendas. Discussion about department structure in relation to administrative purposes , such as Global Studies which involves multiple disciplines . chaptered into the Education Code section 88532. The bill focuses on improving the linkages and career technical pathways between high school and California community colleges. Most of the community college response to the legislation was through programs coordinated directly from the System Office; however, the Academic Services for California Community Colleges focused the design and implementation of one project called Statewide Career Pathways: Creating School to College Articulation. In September 2012, Senator Steinberg's SB1070, continued the work of SB70 and chaptered into the Education Code section 88532. The bill established the Career Technical Education Pathways Program, which would require the Chancellor of the California Community Colleges and the Superintendent of Public Instruction to assist the development and strengthening of linkages and career technical education pathways between high schools and community colleges to accomplish specified objectives. This course was created to act as a first step in creating career pathways in health care offered by Foothill, DeAnza and Mission Colleges
