

€ & A C€ € :

❖ : CCC has reviewed and approved a new AS degree and three Certificates of Achievement in *Geographic Information Systems Technology*. The three certificates offer students a stepped progression from one certificate to the next and then on to an AS degree. This progression provides a solid technical background in these information system concepts and applications that assist to gain necessary skills to progress to advance in their careers and prepare them for professional certification. They are on the FHDA Board agenda for approval at their June 16th meeting and with approval, they will be forwarded to the State Chancellor's Office for final approval. Congratulations to Allison Lenkeit Meezan and the Business and Social Science Division.
