

1. Minutes: April 21, 2015	Minutes as written (Armstrong, Campbell)
2. Announcements	
a. New Course Proposals	New Course Proposals Language and length of description were a concern for courses in both APPT and LINC. Comments made that it's difficult to distinguish the difference in the courses, if courses are in a series or if they build on each other (where one courses ends and another begins). Discussion about whether the
b. Curriculum Refresher Training	
c. Cross-listed GE Courses	
d. ADT Reciprocity Ad Hoc	
e. COOL Online Information	
f. Dental Hygiene Bachelor's Degree Progress	

*Approved May 19, 2015*

Students in this program take the same National Dental Hygiene Board examination and same clinical licensing board exams as students from baccalaureate degree programs. Enrollment projections are positive as there are no baccalaureate-level dental hygiene programs offered at UC or CSU. Similar programs have only been available at private schools (including University of the Pacific). Costs for students to complete four-year degree at Foothill will be \$10,00 compared the \$180,000 cost at a private school. Mention of other considerations in establishing the degrees including course numbers, and different GE requirements at 2 and 4 year schools.

g. AP Info Distribution

Some Foothill courses do not

*Approved May 19, 2015*

	<p>serve on the Curriculum Committee.</p> <p>There will be a Curriculum System Demo shown on Tuesday, May 12, 1-2:30 p.m. Location: FH Council Chambers, Room 2018</p> <p>: the Chemistry dept. has plans to create a new organic chemistry sequence aimed at non-chemistry intensive science majors. This option's purpose is to lower the unit count for each course in the sequence from 6 to 4 so that we can qualify for the stringent unit limits required for the ADT in Chemistry.</p>
